ABOUT ME

Final-year BICT (Hons) undergraduate combining a strong technical foundation in data analytics with a passion for business strategy. Proven track record of maintaining 98% accuracy in high-volume data environments and utilizing Generative AI tools to enhance analytical workflows. Seeking a Business Analyst Intern position to leverage my expertise in requirement gathering, cross-functional collaboration, and SDLC methodologies to translate complex data into actionable business solutions.

EDUCATION

Rajarata University of Sri Lanka | 2022-Present

BICT (Hons) in Information Communication Technology - Current GPA: 3.48/4.0

- Core Modules: Database Systems, Computational Statistics, Data Structures & Algorithms, Networking, OOP.
- Advanced Coursework: Data Science, Artificial Intelligence, Internet of Things.

Mahinda Rajapaksha College - Homagama | 2020

G.C.E. Advanced Level

- Successfully completed the GCE Advanced Level examination in the Engineering Technology stream, achieving 1B and 2Cs.

WORK EXPERIENCE

OREL IT (PVT) Ltd · Colombo, Sri Lanka - | Feb 2021 – Oct 2022

Associate Image Processor

- Processed high volumes of image data with strong attention to detail, maintaining consistent accuracy over 98% across repetitive data organization tasks.
- Contributed to building quality, structured training datasets that directly fed into machine learning and data development pipelines.
- Utilized specialized software (CVAT) to systematically annotate and label data inputs for complex services.

TECHNICAL SKILLS

- **Data Analytics & BI:** SQL, Power BI, Pandas, NumPy, Microsoft Excel, Microsoft Word, Microsoft PowerPoint, scikit-learn.
- **Programming Languages & Web:** Python, SQL, PHP, R, MATLAB, HTML, CSS, JavaScript.
- **Databases, Tools & Methodologies:** MySQL, Firebase, Google Colab, Git, GitHub, Figma, SDLC (Software Development Life Cycle), Agile.
- **Advanced Analytics & AI:** Machine Learning, TensorFlow, OpenCV, CNNs, YOLOv8n, CVAT, Gemini API.

RESEARCH & PROJECTS

Data Collection & Research: Automotive Engine Fault Diagnosis

Ongoing Research | Rajarata University of Sri Lanka | December 2025 – Present

- Collecting, processing, and synchronizing complex multimodal sensor data arrays (Audio and Vibration) for an analytical case study on Toyota 1NZ-FE engines.
- **Technologies:** Python, TensorFlow/Keras, TensorFlow Lite, CNN, Raspberry Pi 4.

Python Voice Assistant With NLP

EXTRU 2024 Exhibition – Rajarata University | 2024

- Developed a Python NLP script to parse text commands and categorize user intents.
- Built robust data pipelines querying external APIs for data extraction and error logging.
- **Technologies:** Python, spaCy, API Integration, NLP.

Smart Parking System

IoT and Web integration Project | 2025

- Gathered requirements and developed a booking system, managing robust data flows and real-time tracking to meet end-user needs.
- **Technologies:** PHP, MySQL, Firebase, ESP32, HTML, CSS, JavaScript.

Hotel Reservation Website – Secret Mirage - 2022

Web Development Project | 2022

- Developed a comprehensive hotel reservation relational database and user interface.
- Implemented the core direct booking module, managing date/time selection data and seamless MySQL database integration.
- **Technologies:** HTML, CSS, PHP, JavaScript, MySQL.

EXTRA-CURRICULAR ACTIVITIES

- **Project Mentor** – EXTRU 2025 Exhibition (under ATIT, Faculty of Technology, RUSL).
- **Member** – ATIT Rajarata, Faculty of Technology, Rajarata University of Sri Lanka.
- **Editor** – PEDONE Chess Society, Faculty of Technology, Rajarata University of Sri Lanka.
- **Member** – Faculty Chess Team – Faculty of Technology, Rajarata University of Sri Lanka.

CERTIFICATIONS

- Power BI Essential Training – LinkedIn Learning (April 2026)
- Machine Learning with scikit-learn – LinkedIn Learning (April 2026)
- Intro to Machine Learning – Kaggle (March 2026)
- Introduction to Artificial Intelligence – LinkedIn Learning (June 2025)
